FENCE

Metal fencing presents the latest in architectural style, boasting clean, modern lines and a sharp finish. Undoubtedly, it can enhance the aesthetics and value of any type of building.

It is tough and long-lasting, finding applications in a wide range of scenarios, such as pool fencing, front fences, driveway gates, and even large fencing areas for modern office buildings.

Most importantly, it is not only safe but also long-lasting and virtually maintenance-free, which significantly improves its cost performance.

Materials

Stainless Steel, Carbon Steel 3-15mm

Aluminium 5-20mm.

Colours

Customised.

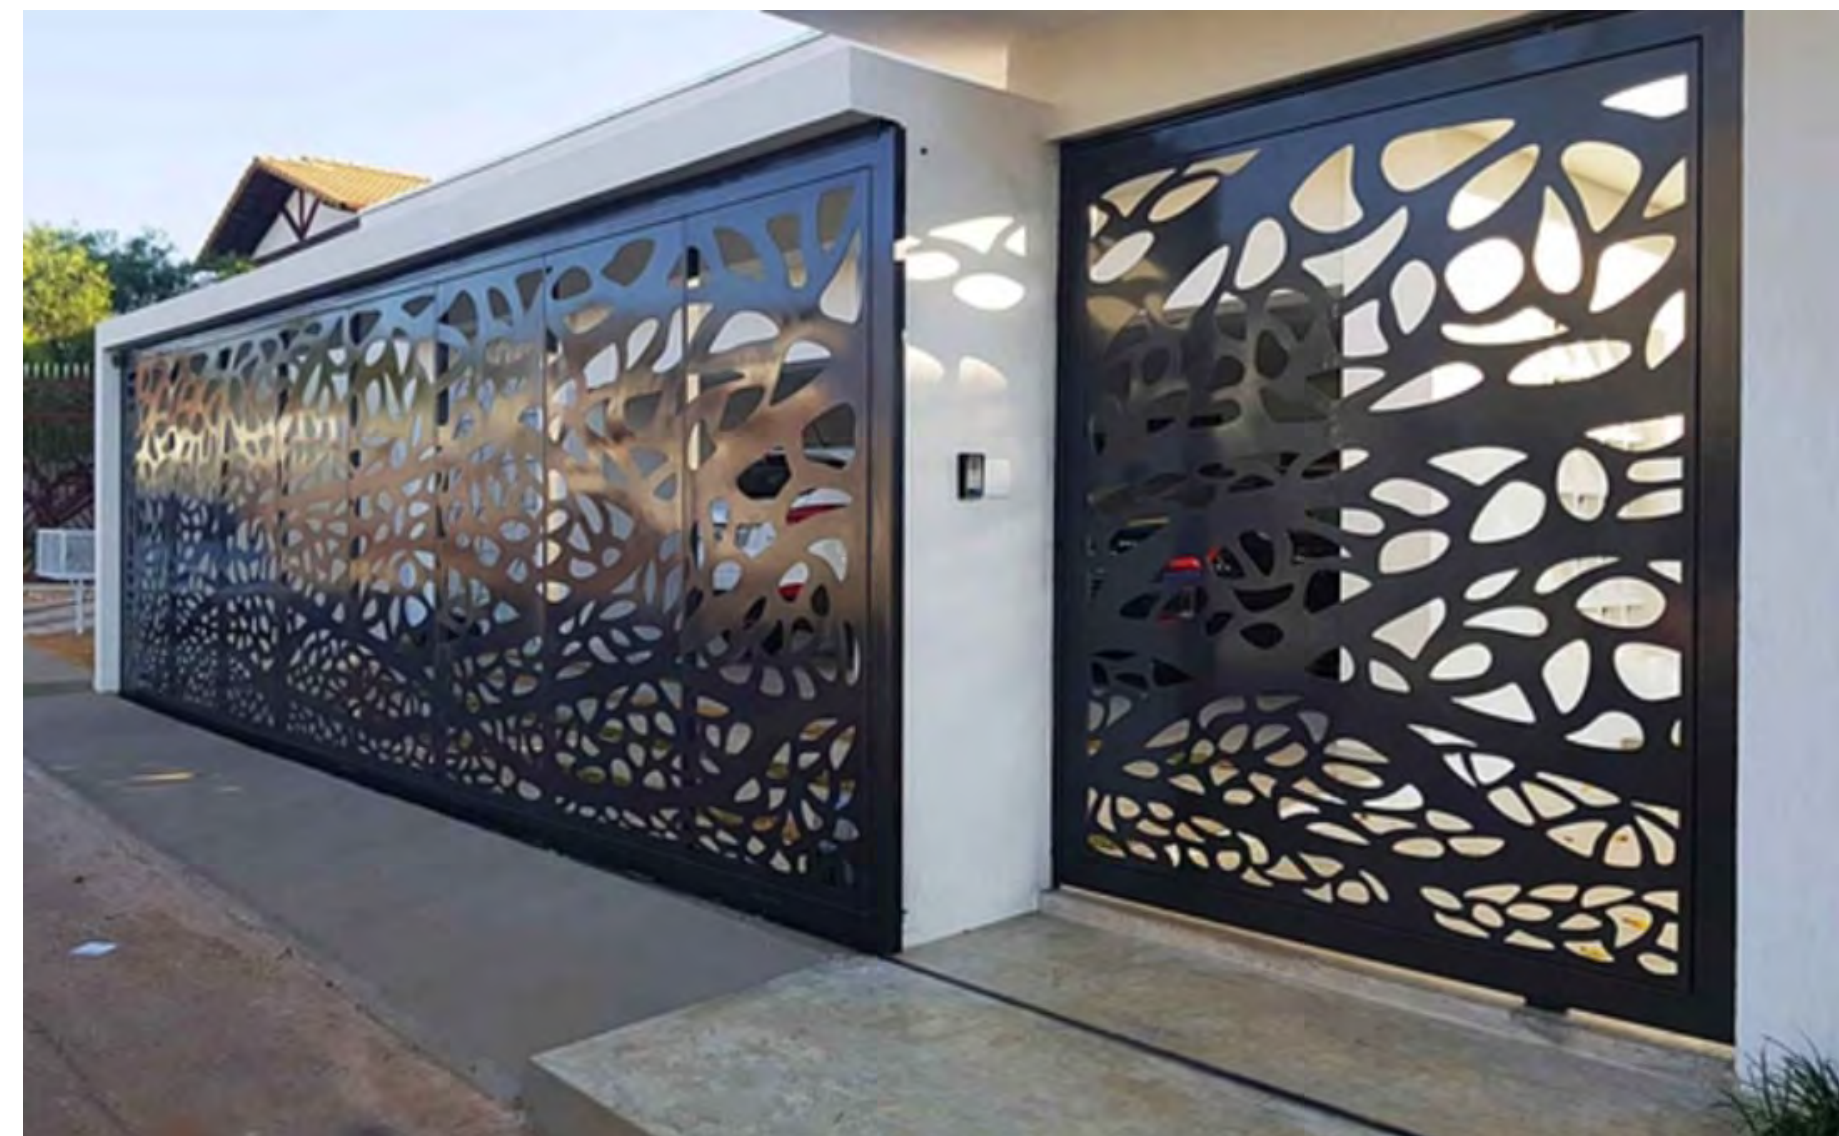

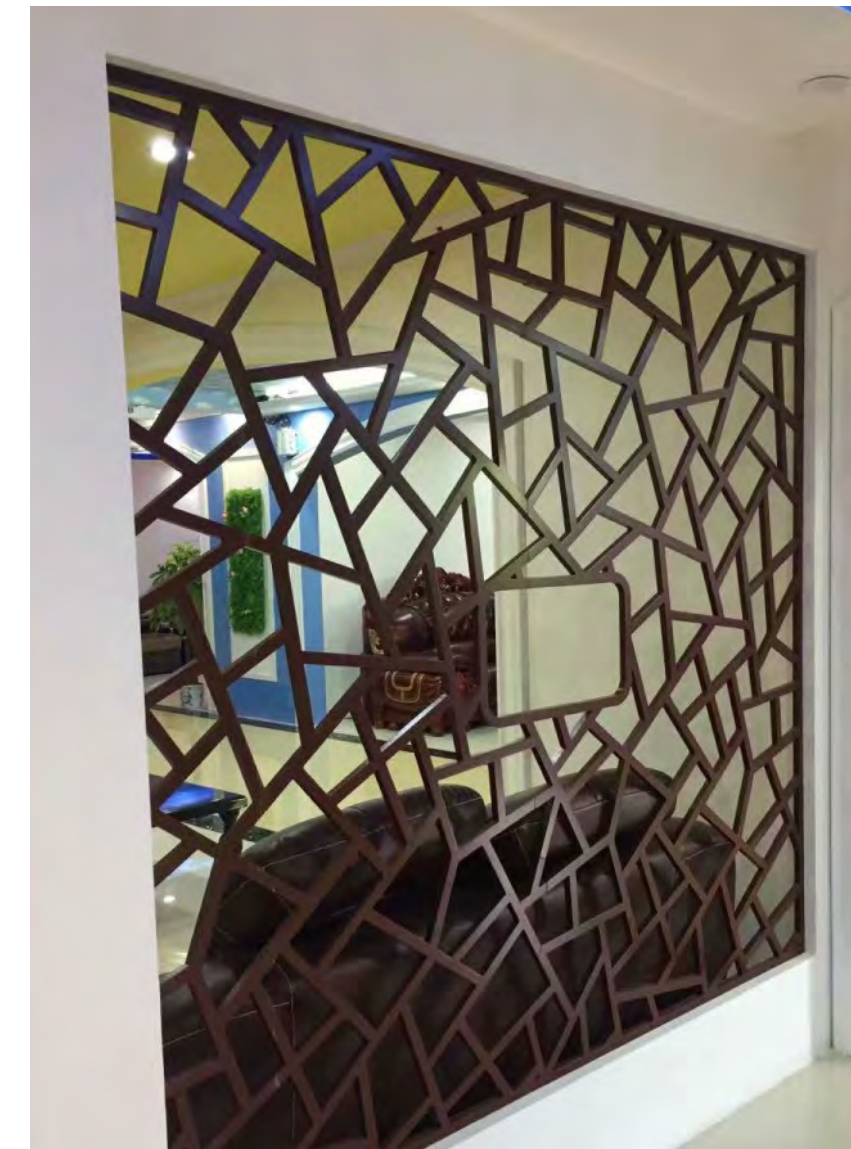

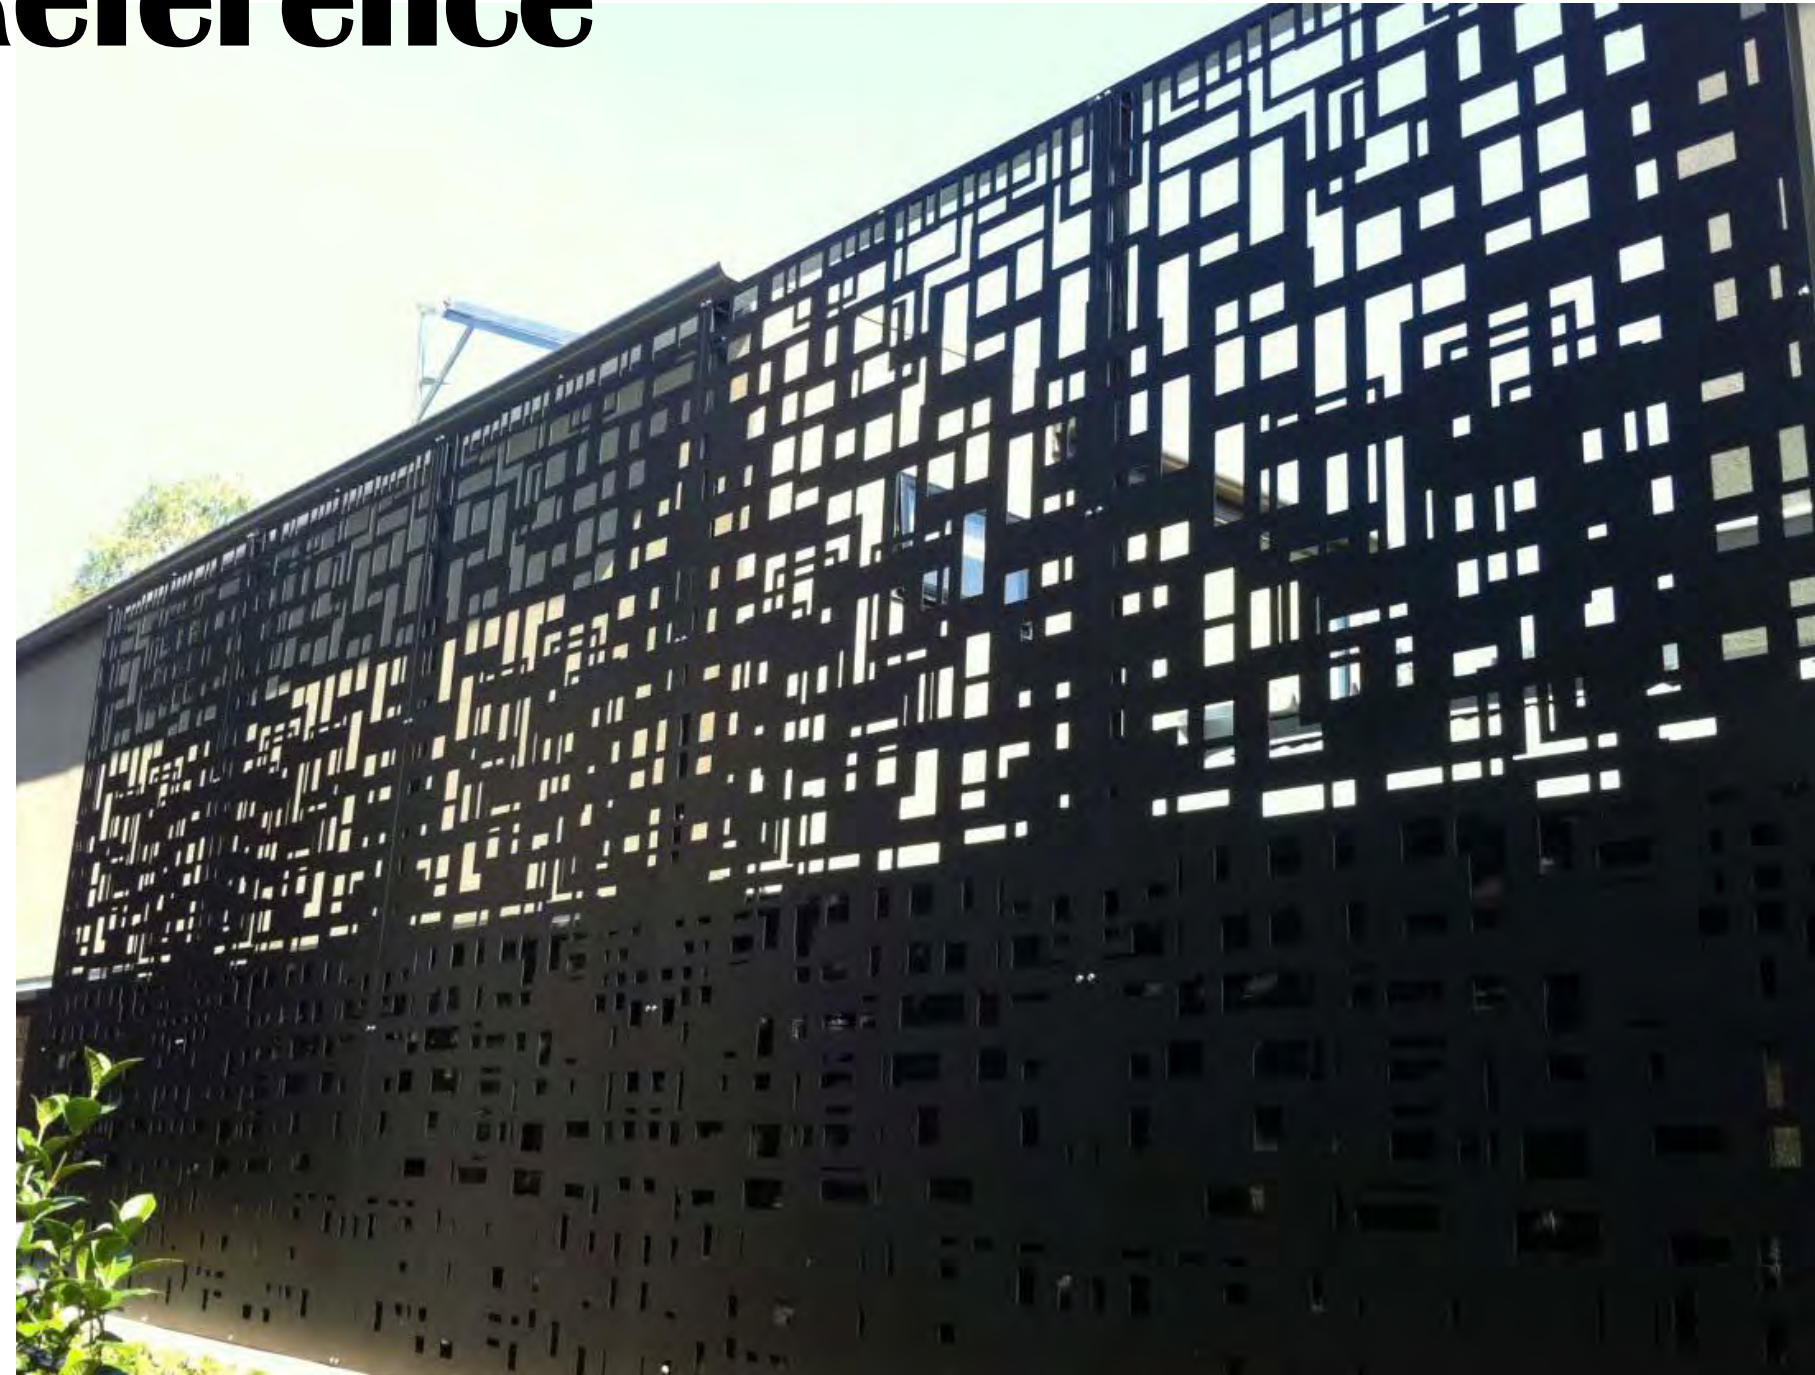

Finishing

Painting, staining, or powder coating
